EXPERIENCE

Grayscale Labs — Atlanta, Georgia
Senior Software Engineer — Jun 2024 - Feb 2025

- Led 5-engineer feature delivery workstream, managing sprint planning, technical design reviews, and release coordination.
- Spearheaded LLM hiring assistant implementation, delivering end-to-end job search, screening, and application workflow for SuccessFactors job boards using Claude 3.5 Sonnet on AWS Bedrock.
- Architected and implemented migration of core recruiting platform to a flexible RBAC system with configurable entitlements.
- Migrated existing frontend CI/CD pipelines from Heroku to AWS Cloudfront/S3.
- Maintained system reliability through on-call rotation, resolving critical issues and implementing preventative alerting via CloudWatch/DataDog.
- Participated in the technical hiring process by developing interview templates and leading evaluations.

Grayscale Labs — Atlanta, Georgia
Software Engineer — Oct 2022 - Jun 2024

- Led 3-person team to create Calendly-like scheduling platform for recruiters, integrating with Microsoft 365 and Google Workspace APIs.
- Executed full rewrite of core Chrome Extension product to Manifest v3, successfully migrating ~10,000 users while maintaining feature parity.
- Engineered high-throughput data pipeline for SAP SuccessFactors, synchronizing hundreds of millions of candidate records for enterprise clients including American Airlines and Carvana.
- Mentored junior engineers through code reviews, pair programming sessions, and technical documentation improvements.

With One Vision — Atlanta, Georgia
Software Engineer — Feb 2022 - Oct 2022

- Led backend development for new marketing lead management application, including REST/GraphQL API design and TypeScript implementation in Node.js

E.R. Snell — Atlanta, Georgia
Business Analyst — Oct 2018 - Feb 2022

- Automated existing operational and financial reporting for a 750-vehicle fleet.

Delta Global Services — Atlanta, Georgia
Business Analyst — Jan 2018 - Oct 2018

- Developed reports to support introduction of the Airbus A321 to the Delta fleet.

9Lenses — Sterling, Virginia
Data Science Intern — May 2016 - Aug 2016

- Introduced sentiment analysis via machine learning to a customer survey platform.
